**Sailing with Enrichment**

Leading academics, artists, and regional experts sail on every Enrichment voyage and conduct Enrichment Seminars and workshops that offer in-depth, collaborative exploration of the history and the culture of itinerant countries.

Interactive classes taught by college professors and other experts. Each day at sea, small groups gather onboard to discuss and further explore a single subject (history, culture, people, flora, fauna etc.) Frequent workshop topics include language study, art, writing, wine and cuisine.

Enrichment Voyage participants share their expertise and experience with fellow travelers. Sessions are 45-50 minutes in length and may be presented in lectures, slideshows, workshops, or other formats.

A wide range of Field Programs is offered. Options range from the adventurous (zip lining, white water rafting, and hiking) to the relaxing (beach visit), encompass city and museum tours, visits to wildlife sanctuaries. Enrichment Voyages offers something special for every participant: fitness classes, bingo, children's programs workshop, for adults cocktails & conversations, live music and entertainment nightly.

Credits available for students who enlist to a special program (law, politics, etc.).
